

## Description:

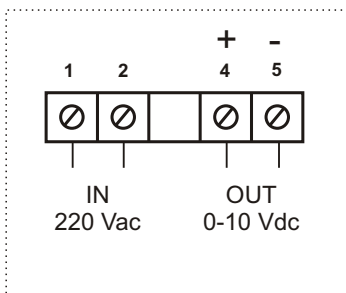

Potentiometer mounted in an IP44 splash water proof housing.  
Can be used for inset mounting as well as for surface mounting.

The MTV-1/010 potentiometer is developed to control fans equipped with a DC-motor.  
The potentiometer needs a supply of 230 Vac, and gives a stepless output signal from 0-10 Vdc.

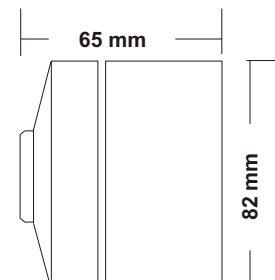

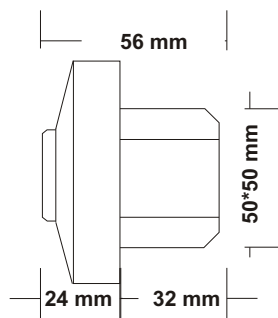

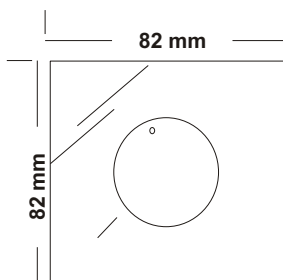

## Features:

- ⚡ Supply 230 Vac
- ⚡ Output: 0-10 VDC ( 8 mA )
